

PLANT HIRE, WASTE MANAGEMENT AND LANDFILL SERVICES

Select Civil Pty Ltd is a Civil Contracting, Plant Hire and Waste Management Services Company, established in 1987 and now based in Kembla Grange just one hour south of Sydney's CBD.

Since conception, Select Civil has enjoyed great working relationships with some of Australia's leading construction, civil and waste companies providing them with quality civil contracting, wet/dry plant hire and waste handling services. Current & past clients in both the private and public sector include: Abigroup/Leighton, John Holland, Daracon, BHP Billiton, Suez Environmental, Thiess Services, Richard Crookes Constructions, Boral Quarries, Cleanaway, Singleton Council, Blue Mountains City Council, Wollongong City Council, Shellharbour City Council, Shoalhaven City Council, Water NSW, Sydney Water and NSW Public Works.

Select Civil currently employs over 90 personnel, including project managers, engineers, supervisors, plant operators, skilled labour, plant fitters and office staff to maintain and carry out our projects. Our experience in construction includes: road construction, bridge construction, stormwater drainage, landfill cell construction, watermain upgrades and sewage pump station construction and mine remediation, and gives us a stable base for new and challenging projects. The enclosed list of previous works outlines Select Civil's background and experience along with details of referees.

Current & recent contracts - some in excess of \$10 million - demonstrate Select Civil's ability to take on, manage & successfully complete large-scale construction projects of any nature.

Select Civil currently holds Quality Assurance Certification to ISO 9001 and runs accredited WHS & Environmental Management System to ISO 14001 & AS/NZS 4801 standards for the provision of construction and engineering works, plant hire services and landfill services.

We look forward to the working with you to deliver your next project.

SERVICES

- **PLANT HIRE**
Fleet of standard and specialised construction equipment for both Wet & Dry hire requirements on both long term & short term contracts.
- **WASTE MANAGEMENT AND LANDFILL SERVICES**
Extensive experience waste management & landfill services handling over 3.6 million tonnes of waste a year Australia wide.

SELECT CIVIL

PLANT HIRE

Select Civil has grown over the past 45 years to become a respected plant hire company in NSW. Our location in the Illawarra means we can easily service all areas in the state with reliable machines and skilled plant operators.

Our fleet of over 150 items of plant include excavators from 5 to 30 tonnes with rock-saws, tilt buckets, hammers and grabs; longreach excavators; dozers; 30 and 40 tonne articulated dump trucks; graders; waste & soil compactors; loaders and various small plant. Our equipment is utilised on long & short-term hire contracts in both Wet hire & Dry hire applications from Newcastle to the NSW south coast providing our clients with quality late model solutions for their plant hire needs.

Our hire fleet is maintained by our team of mobile plant mechanics working out of our maintenance facilities in Kembla Grange, Lucas Heights & Kemps Creek allowing Select to support our equipment efficiently wherever it is situated around the Illawarra, North & South Coast and Sydney basin.

SELECT CIVIL

WASTE MANAGEMENT AND LANDFILL SERVICES

A key component in Select Civil's structure is our Waste Management & Landfill Services division. Select currently operate 6 long term Landfill Services contracts in Sydney (Lucas Heights & Elizabeth Drive Waste Facilities), Raymond Terrace (Newline Road Waste Facility), Melbourne (Hallam Road Landfill), Perth [North Bannister Resource Recovery Park] and Mackay (Hogan's Pocket Landfill) these sites current monthly combined tonnage of waste is excess of 300,000 tonnes per month often in difficult & challenging weather & conditions. In addition to the placement of waste at the sites Select also carry out associated services such as;

- Cell excavation & construction work, dry and wet plant hire, materials handling and site maintenance.
- Engineered Cell Capping.
- Gas & Leachate Infrastructure Works
- Landfill Infrastructure works.

Select employ in excess of 70 staff at the sites [inclusive of 2 Regional Managers, 7 Site Managers, 7 Site Foremen & 10 Heavy Plant Fitters] to carry out the site operations & to maintain the plant to the standard required to perform these operations.

In addition to the provision of services to the sites Select also provide long and short term Dry hire of landfill plant & equipment to numerous local Councils & other Waste management companies including local councils such as Singleton & Wollongong Councils. Our clients appreciate Select's ability to supply back up support & equipment for the plant that operate in a very harsh environment.

Lucas Heights Landfill - Lucas Heights, NSW Since June 2011

The Lucas heights resources recovery centre is a 125Ha site and is licensed to accept 550,000T per year of Solid Putrescible and non-putrescible waste including C&I and C&D waste. 50, 000T per year of Green Waste to Sita Organics Composting platform.

Select is currently contracted to provide landfill services at the site, these services include a public drop off and resources recovery transfer station, tip face operations, stormwater & leachate management, maintenance of access roads & litter control. In addition to these services for the environmental solutions Select also provide Dry Hire Plant to Sita Organics including 2 x 950H and 1 x 966H Loaders and maintenance for the green waste plate form operated by SITA Organics.

As part of our landfill services infrastructure Select operate an accredited equipment workshop at the site inclusive of 2 full time qualified plant mechanics.

Elizabeth Drive Landfill - Kemps Creek, NSW Since January 2009

The Kemps Creek Resources Recovery Centre is a 65Ha site which is licensed to accept 550,000T of solid non-putrescible waste, Commercial and industrial (C&I) waste, construction and demolition(C&D) waste and restricted waste.

Select is currently contracted to provide landfill services at the site, these services include tip face operations, stormwater & leachate management, maintenance of access roads & litter control. As part of our landfill services infrastructure Select operate an accredited equipment workshop at the site inclusive of 2 full time qualified plant mechanics and 1 apprentice.

The site also includes Sita's state of the art Alternate waste treatment facility (SAWT) for which select has been contracted to provide Mobile Equipment and maintenance on 4x 938H wheel loader and a backup 950G

OUR PLANT HIRE AND WASTE MANAGEMENT SERVICES TEAM

RENAUD CHAUVET – MANAGING DIRECTOR

17 years in business subsidiary management, Renaud holds an MBA in International Management and a Masters of Management in Corporate Finance from the University of Dallas, Texas. Previous long-term experience in West Africa in Plant & Equipment distribution and timber industry. Renaud has been with Select Civil for 13 years.

GRAHAM PEACE – GENERAL MANAGER

18 years working in civil and construction projects management, including the construction of sewerage pump stations, bulk excavation & soil treatment projects, mine rehabilitation projects, waste and waste cell construction, bridge construction and roadworks. Graham successfully managed projects in Australia, South Africa and England.

PETER 'WIZZ' WISNIEWSKI – ASSET MANAGER

Peter has extensive knowledge of plant and equipment on major road, rail, mine and waste water development projects. His long operational experience of earthworks makes him an invaluable and respected asset to our estimators and foremen. It is this experience that our wet hire clients recognise when hiring equipment from Select Civil. Peter has been with Select Civil for 15 years.

DYLAN JULIUS – OPERATIONS MANAGER

Dylan began with Select Civil in 2005 as a skilled plant operator. His work ethic, experience on large commercial and industrial construction projects and ability to work with our team has seen him become a highly thought of member of the team. Dylan has progressed in Select Civil and has now expanded in his role to oversee all of Select Civil's NSW, W.A and QLD based projects and assisting other landfill supervisors in the progressive improvements to their operations.

CRAIG JONES – MAINTENANCE MANAGER

Craig is a qualified heavy plant mechanic who together with his crew takes great pride in the high level of safety and plant availability he maintains for our fleet. He has over 30 years' experience working with heavy plant in underground mining, construction, the forestry and waste industry. Since Craig's arrival at Select Civil in 2006 we have had the confidence to make considerable investment in tooling, equipment and personnel.
